It is important that the name on your reservation be exactly as it is stated on your passport or other official proof of citizenship. If your name has changed since your document was issued (e.g., marriage or divorce), it is required that you update the document with the new name or provide an official supporting document (e.g., a state, county or province issued marriage license, divorce decree or legal name change document) of the name change. All documents must be the original or a notarized copy. Additionally, if you are using an identification (e.g., driver's license) and a citizenship document (e.g., birth certificate), then BOTH documents must match the name on your reservation.
